

HUMANIST TF-F Workshop

'ITS, their functionalities & drivers'
training methods

Questionnaire Results

- Which Domain are you coming from?

Research	Industrial	Policy	Other
12	4		3

- Do you find training on ITS useful and why?

Necessary	Useful	Not Useful at all
7	12	

- Depends on the training type and effectiveness
- Evaluation should be first applied

- Do you think training on ITS should be mandatory for drivers?

Yes	No	Don't know
10	7	2

- Do you think that ADAS manufacturers should provide training on ITS to the drivers?

Yes	No	Other (under spec. conditions)
9	9	1

- ADAS manufacturers should provide information on ADAS functions not training. Training is too demanding to ask from manufacturers
- Driving schools & government responsibility

- Do you think that the currently available manuals for ITS products installed in vehicles are sufficient?

Yes	No	Do not know
1	12	6

- Not sufficient for training
- Need for additional training methods

- Would you support supplementary training methods (driving simulator, multimedia training tools, etc.) for ITS training?

Yes	No	Do not know
15	2	2

- These systems should be self instructed and user friendly
- Multimedia training for theoretical
- Simulators for practical
- Specific target groups should be given special focus

- Who is to be responsible for implementing such training?

Government	ADAS Manufacturer	Other
7	5	Dealer -1 Both-5 Not know-1

- Both are responsible
- The dealer should be also responsible
- Legal issues should be firstly investigated before answering this question
